PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience building Django web applications and REST APIs, and applying machine learning to production features — including a Heart Disease Prediction system achieving 88%+ classification accuracy. Proficient in Python, Django, SQL, JavaScript, and Scikit-learn, with practical experience integrating LLMs (OpenAI API, Groq API, LLaMA 3) into full-stack applications for AI-powered features. Certified in Python Full Stack Development and Data Analytics, having contributed to 35+ Django and AI/ML project solutions across backend development, database management, and frontend integration.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript (ES6+), HTML5, CSS3, Object-Oriented Programming (OOP)
Backend & Web: Django, Django ORM, REST APIs, API Development & Integration, JWT Authentication, Full Stack Development
Frontend: HTML5, CSS3, JavaScript, Bootstrap 5, Responsive Web Design
Databases: SQLite, MySQL, Oracle SQL
Generative AI / LLM: AI Application Development, Prompt Engineering, LLM Integration (OpenAI API, Groq API, LLaMA 3)
Machine Learning: Scikit-learn, Model Training & Evaluation, Feature Engineering, Classification
Data Science: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, Power BI, Pandas, NumPy
Computer Vision: Computer Vision, OpenCV, Image Processing
Developer Tools: Git, GitHub, VS Code, Debugging, Testing, Version Control, Application Deployment
Professional Skills: Problem-Solving, Team Collaboration, Time Management

PROFESSIONAL EXPERIENCE

Python Full Stack Developer | JLA Tech Services, Erode, Tamil Nadu *Nov 2025 – Present*

- Built and maintained Python/Django web applications using REST APIs, JWT authentication, SQL, and Bootstrap 5, contributing to 35+ Django and AI/ML project deliverables.
- Integrated OpenAI API and Groq API (LLaMA 3) into Django backend applications, delivering real-time AI chatbot and text-prediction features.
- Built, trained, and evaluated Scikit-learn classification models using Pandas and NumPy, including a Heart Disease Prediction system achieving 88%+ prediction accuracy.
- Developed an OpenCV-based computer vision module within a Django application for image processing, filtering, resizing, and object detection.
- Owned features end-to-end across the SDLC — testing, debugging, deployment, and database operations across SQLite, MySQL, and Oracle SQL.
- Developed responsive user interfaces using HTML5, CSS3, JavaScript, and Bootstrap 5, integrating them with Django backend functionality.

Web Development Intern | M & S Software India Pvt. Ltd., Chennai, Tamil Nadu *Jan 2023 – Jun 2023*

- Developed responsive client-facing web pages using HTML5, CSS3, JavaScript, and Bootstrap 5 for web applications.
- Assisted in Django feature development, backend functionality, and responsive UI enhancements for client projects.
- Debugged application issues and supported software maintenance throughout the software development lifecycle.

PROJECTS

AI Chatbot Web Application — *Python, Django, Groq API, LLaMA 3, SQLite, JavaScript, HTML5, CSS3, Bootstrap*

- Developed a real-time AI chatbot web application using Python, Django, Groq API, and LLaMA 3, integrating large language model (LLM) capabilities into the Django backend.
- Implemented session-based conversation history, SQLite message persistence, and context-aware prompt engineering to improve conversational continuity.
- Optimized API request workflows to improve response latency and enhance role-specific response quality.

Heart Disease Prediction System — *Python, Django, Scikit-learn, Pandas, NumPy, Machine Learning*

- Developed a machine learning-based Heart Disease Prediction system using a Scikit-learn classification model and integrated it into a Django web application and dashboard, achieving over 88% classification accuracy.
- Performed data preprocessing, feature engineering, model training, and model evaluation using Pandas and NumPy before integrating the model into the Django application.

EDUCATION

B.E. – Computer Science & Engineering

Nadar Saraswathi College of Engineering & Technology, Theni, Tamil Nadu | 2019 – 2023 | CGPA: 8.35

CERTIFICATIONS

- Certified – Python Full Stack Development
- Certified – Data Analyst
- Resource Person – Deep Learning Using Python Workshop, Govt. Arts & Science College, Kaikattiputhur (Aug 2026)
- Guest Speaker – AI/ML Innovation Trends Seminar, Christ The King Polytechnic College, Coimbatore
